

Blaneys hosted ONEIA for Networking Breakfast with Ontario Environment Commissioner Gord Miller

Date: January 14, 2010

Blaney McMurtry hosted members of the [Ontario Environment Industry Association \(ONEIA\)](#) for a special breakfast with Ontario Environment Commissioner Gordon Miller on January 20, 2010. Since his appointment in 2000, Commissioner Miller has been praised for his open and frank observations on Ontario's environmental failings and successes. The mandate of his office has been recently expanded, and a special report on Ontario's lack of progress in meeting its greenhouse gas reduction targets is just the start of what is expected to be an even more public role for his office.
